Annexures	19.1.1 Planner's Information Report – December 2019

INTRODUCTION

This report provides Councillors with an overview of the applications for the current period as per motion 249.09.2015, passed at the 24 September 2015 Council Meeting when Council requested monthly data from the West Tamar Council planning consultancy service.

Permitted applications are assessed under section 58 of the *Land Use Planning and Approvals Act 1993* (the Act) and are not advertised. If applications classified as Permitted meet all development and use standards, they must be granted a permit, with or without conditions.

Discretionary applications are assessed under section 57 of the Act and are exhibited for a two week period during which submissions may be received from the public. If a submission is received the planners report for that application is considered by Council. Discretionary applications where no submissions are received as well as applications with a Permitted pathway are approved under delegation to the General Manager.

The numbering of applications relates to the electronic filing system. Numbers are allocated to Planning (DA), Building (BA) and Plumbing (PA) applications as they are received. This may mean that planning numbers are not sequential if for example, a development requires a building application but is exempt from a planning application.

PREVIOUS COUNCIL CONSIDERATION

Some items may have been considered at meetings of Council while the remainder have been approved under delegation by the General Manager.

2. Councillor Sharon Blyth resigns as Council representative to Flinders Island Business Incorporated and Mayor Annie Revie be elected as the Council representative.
3. Mayor Annie Revie be elected as a Council representative on the Furneaux Islands Festival Special Committee, directly following the 2020 Festival.

There are two main objectives behind Councillor representation on Council Special Committees:

1. To enable regular community engagement in issues that are important to Council and the Community at large; and
2. To enable Council and Community members / organisations to work together, to achieve outcomes that are critical to both.

During the 2019 calendar year, Councillor Sharon Blyth and Mayor Annie Revie have represented Council jointly on the Furneaux Community Health Special Committee. Councillor Blyth was also nominated as Councillor Representative to Flinders Island Business Incorporated. Based on their experience over the year, they have discussed preferences with regard to interest. As a result, they have decided to seek Council approval to exchange their roles.

Currently, the Furneaux Islands Festival Special Committee does not have a Councillor representative. Council officers are part of this committee, but it is important that there is also an elected member participating.

OFFICER'S REPORT

As permitted under Section 21 (1c), Enterprise Powers of the *Local Government Act 1993*, Council became a member of NTDC as from 1 January 2017. The NTDC was officially formed in March 2017 with the following primary objectives:

INTRODUCTION

The Coastal Vulnerability Assessment and the Nalinga Creek Hydrology Summary were commissioned by Flinders Council to assess community vulnerability to changing hydrological conditions in and around Whitemark. Investigation sites covered inland areas up to 800m from the coast and coastal areas covering approximately 2km of coastline between Whitemark and Nalinga Creek to the south.

The Coastal Vulnerability Assessment report provides recommendations for management of the coastline, including vulnerable areas subject to changing conditions.

The Nalinga Hydrology Summary assesses changes in inland hydrology for Nalinga creek and provides recommendations to mitigate resulting impacts on inland water levels.

Council Workshop 17 December 2019

OFFICER'S REPORT

As presented to Councillors at a workshop held on 17 December 2019, the Coastal Vulnerability Assessment Report (Annexure 21.4.1) was prepared by Geo-Environmental Solutions in October 2018. The Report comprises a scoping study of five (5) individual sites within the Whitemark area. These sites are defined by the following title references:

- CT 203960/1 (33 Esplanade – Flinders Island Golf Course - Site 1, 2, & 3);
- Crown Land (Site 4); and
- CT 129006/1 (16 Esplanade - Tasmanian Ports Corporation Pty Ltd - Site 5)

Project objectives included:

- produce a coastal vulnerability assessment report for the study area;
- assess and define the existing and potential coastal hazards associated with climate change;
- projections for the study area, including assessing coastline inundation, wave climate, coastline recession & storm erosion; and
- make general recommendations for the coastline in the study area as well as specific recommendations for development on Sites 1 to Site 5.

The Nalinga Creek Hydrology Summary (Annexure 21.4.2), prepared in October 2018, complements the above report. The Summary assesses the change in inland hydrology for Nalinga Creek which includes increases in sea level and changes in the bathymetry that would alter river levels.

It is hoped that these reports will help inform future development in and around the Whitemark area.
