Question 1: Deputy Mayor David Williams – Two-hour parking limit at Airport

Could Council please look at ways of controlling the public use of the two-hour parking limit at the Airport? It has been pointed out to me that vehicles are parking there for several days.

Mayor's Response

Thank you for your question, Deputy Mayor.

Council is currently investigating available legislation, as well as the potential for establishing parking by-laws, to better manage parking at the airport, and potentially other Municipal locations.

Local Laws, also known as by-laws, are a significant cost impost to develop. Thus, they should be based on a sound needs analysis and rigorous community consultation process. Interestingly, out of the 29 existing Tasmanian Local Councils, only 17 have Local Laws; possibly for the above reasons.

Council is also exploring legal authorities to seize abandoned cars and remove them from Municipal places, although again, if appropriate, there is likely to be a rigorous process around this also.

A further option being considered relates to re-design of the car parking area to better structure the various types of park usage that exist at the Whitemark Airport.

Lastly, consideration is also being given to private management of car parking at the Airport as a business proposition. This, however, may present some challenges concerning the commercial viability of such an exercise, given the relatively limited volume of car parking.

Council will continue to explore these options with a view to improving parking opportunities and fairness for all users. I will update Councillors and the community as this investigation progresses.

Once again, thank you for your enquiry.

RECOMMENDATION

That the response to the Councillor's Questions Without Notice from the 15 June 2021 Council Meeting be noted.

9 Conflict of Interest

In accordance with Part 2, paragraph 6 of the Local Government (Model Code of Conduct) Order 2016, Councillors are required to declare any conflict of interest, be in actual, perceived or potential, that they may have regarding any matter appearing on the agenda, or any supplementary item to the agenda before any discussion on that matter commences.

16.1 Development Information Report

Action	Information
Proponent	Council Officer
Officer	Jacci Viney Development Services Coordinator
File Reference	PLN/0105
Annexures	16.1.1 Development Information Report – June 2021

INTRODUCTION

This report provides Councillors with an overview of the applications for the current period as per motion 249.09.2015, passed at the 24 September 2015 Council Meeting when Council requested monthly data from the West Tamar Council planning consultancy service. As of July 2020, Flinders Council now generates the data and prepares the Development Application Report monthly.

Permitted applications are assessed under section 58 of the *Land Use Planning and Approvals Act 1993* (the Act) and are not advertised. If applications classified as Permitted meet all development and use standards, they must be granted a permit, with or without conditions.

Discretionary applications are assessed under section 57 of the Act and are exhibited for a two-week period during which submissions may be received from the public. If a submission is received, the planner's report for that application is considered by Council. Discretionary applications where no submissions are received, as well as applications with a Permitted pathway, are approved under delegation to the General Manager.

The numbering of applications relates to the electronic filing system. Numbers are allocated to Planning (DA), Building (BA) and Plumbing (PA) applications as they are received. This may mean that planning numbers are not sequential, if for example, a development requires a building application but is exempt from a planning application.
