Hi Jacci,

Unfortunately I have not been able to speak to [redacted] from [redacted] regarding this matter to date, but I would make the following comments –

Firstly the tracks that currently exists on the crown land in question are not designated fire trails

Private property owners wishing to access their blocks using these track would need to obtain a licence from Crown Land Services to do so.

In my option any significant increase in the use of these tracks would require major surface and drainage works to be undertaken on the tracks.

I think there are a number of issues with the use of these tracks and I need to fully discuss with [redacted] from [redacted] to obtain what their requirements are going to be in relation to this matter.

Regards,
