Subject: RE: Election for LGAT President

Dear all

As conveyed to all at the recent L.G.A.T. A.G.M. I confirm that i will be standing for the position of President.

You are all aware i hope of my experience both in Local, and State Government and also my business experience.

You are also aware that i am no shrinking violet when it comes to expressing an opinion and view on matters which concern us all.

Fundamentally i do not have any axes to grind with either the State Government nor L.G.A.T. but am of the firm belief that the organisation needs a person in the position of President who will ensure that through policy and ideas the financial contribution that your Council makes to L.G.A.T. produces a benefit in excess of the financial contribution.

I undertake that if i am elected to the position i will ensure that over time you will receive a tangible benefit far in excess to the dollar value which you and your community contributes the running of L.G.A.T.

I am happy to discuss any matter of concern and feel free to have any of your elected representatives and staff contact me should they wish to discuss any of my views.

I would also be happy to visit your Council should you so desire to discuss any issues or to present my views.

I thank you for your consideration.

Mayor Steven Kons
