Local Government Association of Tasmania (LGAT)

Welcome new CEO, Katrena Stephenson. Katrena was previously the Policy Director for LGAT. Congratulations to the newly elected members of the General Management Committee (GMC) of LGAT. The Meander Valley Council Mayor, Cr Craig Perkins, is the elected GMC Representative for the Northern Councils with populations less than 20,000.

The LGAT Conference is being held in Launceston on the 23rd and 24th July. This is preceded by the Annual General Meeting and a General Meeting on 22nd July. This year the week has been turned into an extravaganza of events for Local Government Representatives. On Monday the 20th there is a pre-conference forum called - A Healthy Change, focusing on food security. LGAT has organised a Local Government Research Symposium on the 21st and on the 23rd there is a breakfast organised by the Northern Councillor's Group, C8 with guest speaker focusing on opportunities of the NBN. The week will also include a meeting of Northern Tasmania Development (NTD). This is the first time that the Conference has been preceded by forums and it makes for a full week of interesting Local Government orientated information and networking opportunities that Flinders Council representatives might not otherwise attend.

I wish to thank LGAT for the Bass Strait Islands' subsidy they have applied to the conference attendance fees. The Deputy Mayor, Cr Willis and myself will be your Councillor representatives at the Conference. We will also be taking this opportunity to network with other Councillors and staff.

State Government Cabinet Visit

I have been extremely privileged to welcome the full State Cabinet to the Island for a Cabinet Meeting. Councillors met with the Cabinet in the morning and also attended the lunch put on by the members for Bass, The Hon. Peter Gutwein MP, The Hon Michael Ferguson MP and Sarah Courtney MP. The Deputy Mayor then accompanied the Minister for Health and the Minister for Human Services on a tour of the Multi-Purpose Centre, the General Manager accompanied the Minister for Infrastructure and the Minister for Resources to view the Port, whilst I then accompanied the Minister for Education and the Treasurer to visit the School. The Premier and other Cabinet members visited with the Flinders Island Aboriginal Association Inc. and flew to Cape Barren Island. Those remaining on Flinders were hosted to afternoon tea at Markarna Park.

Both from my point of view and feedback from the visitors, this was a very successful visit. Council indicated that it is very appreciative of the dollars that have been spent on the Island in recent years and the support given in maintaining good sea access, highlighting that this assists Council in being proactive in maintaining and upgrading its own infrastructure. The major area that Council is working on now, and that causes the most angst in the community, is the limited and unreliable access to telecommunications, both as phone and data transfer, and that an upgrade of these is necessary for safety and to continue to grow the Islands.

I thank the Cabinet Members and Sarah for making the trip to Flinders for this historic event.

Local Government Reform

The Minister for Planning and Local Government has written outlining the next phase of the process for those Councils who have advised they will participate in discussions on amalgamation and resource sharing. Flinders Council has advised the Minister that it sees no advantage for its communities in the Council discussing amalgamation or a shared service model. The Council will be and is in contact with other northern councils on opportunities to resource share. Flinders already works with another Council in planning and building where it would cause exorbitant expense to the ratepayers to have staff with the required skill sets employed locally. In the letter received from the Minister on the 7th July, Minister Gutwein advised that *"a number of council's are now prepared to engage in feasibility studies at a regional level."* and states that *"Given the potential benefits of a much broader, regional approach to resource*

sharing, it would be disappointing if there were a small number of councils in each region not participating in such major reform.” and requests that Councils who elected to stay out of the process reconsider on the back of the emergence of the significant proposals that are being considered in all three regions.” This is a matter that Council as a part of the northern region will need to consider.

Whitemark Boat Ramp

Thanks to the Recreational Boating Fund, (funded from boat licence revenue for the purpose of improving recreational boating infrastructure around Tasmania), the Whitemark boat ramp will be upgraded this financial year. The Council's application for one to one funding to make improvements to the launching facility was successful, with \$42,500 being granted.

Federal Government Funding for Local Government

The Federal Government, whilst freezing the Financial Assistance Grants (FAGs) to Councils, is increasing the amount of dollars available to Councils in other areas, such as roads in the form of Roads to Recovery funding. How much Flinders Council will be able to take advantage of these funding opportunities will very much depend on the regulations around each type of funding. For instance, for Roads to Recovery funding Council has to spend a substantial amount of its own money on roads, excluding the funding for roads that it receives in the form of FAGs. Application for and reporting on money available and received is time consuming and requires skill. The small council staff we have will be doing its best to take each and every opportunity as it arises, however there will be times when the staff capacity is stretched to the limit, particularly when you take into account the amount of regular reporting that is also required. Your Council staff are dedicated to working hard to achieve the best possible results for you, the rate payers, and community members in all areas of its activities.

Legislation

Two sets of remade and amended local government regulations came into effect on the 29th June - Local Government (Meeting Procedures) Regulations 2015 and the Local Government (General) regulations 2015.

The major change that will be noticeable to ratepayers is that Council no longer has to advertise scheduled Ordinary Meetings of Council in the Examiner. One notice giving the set dates of the meetings for the year will suffice. Only changes to meeting dates than have to be advertised in the Examiner (as our daily paper). The list of dates will be on Council's website and on the Notice Board at the Council entrance. Each Council Meeting will continue to be advertised in the Island News.

Strengthened Code of Conduct for Councillors legislation did not pass the upper house. This legislation was initiated by the Local Government Sector and

has been some time in the making. The issue will be discussed further at the upcoming LGAT meetings.

INTRODUCTION:

Section 82 of the *Local Government Act 1993*, requires Council to prepare Budget Estimates of the Council's revenue and expenditure for each financial year.

As part of these Budget Estimates and pursuant to Section 90 of the *Local Government Act 1993*, Council can raise a general rate on all rateable land (excluding land which is exempt) within the Flinders Municipality, based on a cents in the dollar amount on the Assessed Annual Value (AAV) of the land.

PREVIOUS COUNCIL CONSIDERATION:

Council Budget Workshops 1st & 2nd June 2015

OFFICER'S REPORT:

Due to an increase in valuations, Council has decided not to increase the rate in the dollar for 2015-16. Below are the main areas of interest within the proposed 2015-16 rates resolution:-

Setting of General Rate

The proposed Budget Estimates for 2015-2016 provides for general rate revenue of \$1,280,659. This is represented by a rate in the dollar of 9.4704 cents in the AAV which together with some growth revenue, other income and cash reserves will provide an operating expenditure budget of \$5.7 million.

In line with Section 89B of the *Local Government Act 1993*, the relevant percentage for the purpose of minimum amounts must be set at 35% of the total rateable properties. Hence, Council's minimum amount is set at \$435 to be compliant.

Fire Service Contribution

Pursuant to Part 5, Division 3 of the *Fire Service Act 1979*, Council is required to collect funds for firefighting services throughout the State and for 2015-16 year it will be 0.3296 cents in the dollar in respect of General Land.

The State Fire Commission has notified Council that the minimum levy has increased from \$37.00 to \$38.00 per assessment.

Waste Management

Under Section 93 (1)(d) of the *Local Government Act 1993*, a council may make a service rate for rateable land for waste management.

Council provides waste management services to all land within the Municipality which comprises waste disposal areas, waste transfer stations and other related waste management facilities such as recycling bins.

Council will be increasing their focus on waste management during 2015-16 by carrying out ongoing site improvements at Whitemark and the continuation of the introduction of recycling.

To accommodate this focus as well as meeting all statutory and environmental requirements involved, it is proposed to increase the waste management service fee from \$148 to \$152 per property.

STATUTORY REQUIREMENT:

Local Government Act 1993

POLICY/STRATEGIC IMPLICATIONS:

5. Corporate Governance and Intergovernmental Relations

5.1 Support the capacity and productivity of our organisation and a culture of professionalism, compliance, innovation and service.

5.1.3 Achieve a sustainable balance of income, investment and recurrent expenditure.

5.1.3.3 Deliver the new Budget Estimates for the proceeding financial year.

BUDGET AND FINANCIAL IMPLICATIONS:

The adoption of these Estimates provides the necessary funds for the implementation of the Annual Plan 2015-16 and to achieve Council's strategic outcomes detailed in Council's draft Strategic Plan.

RISK/LIABILITY:

Maintaining a sound financial position is a critical function of Council. Failure to be financially accountable has significant implications for Council.

VOTING REQUIREMENTS:

Absolute Majority

OFFICER'S RECOMMENDATIONS:

That in accordance with the provisions of the *Local Government Act 1993*, Council adopts the Rates and Charges for the period 1 July 2015 to 30 June 2016 in accordance with the resolutions which follow:-

1. General Rate:

- 1.1** Pursuant to Section 90 of the *Local Government Act 1993*, Council makes the following general rate on all rateable land (excluding land which is exempt pursuant to the provisions of Section 87) within the Municipal Area of Flinders for the period commencing 1 July 2015 and ending 30 June 2016, namely a rate of 9.4704 cents in the dollar on the assessed annual value of the land.
- 1.2** Pursuant to Section 90(4) of the *Local Government Act 1993*, Council sets a minimum amount payable in respect of the general rate of \$435.

2. Service Rates and Service Charges:

Pursuant to Sections 93, 93A, 94, 94A and 95 of the *Local Government Act 1993*, Council makes the following service rates and service charges on all rateable land within the Municipal Area of Flinders (including land which is otherwise exempt from rates pursuant to Section 87 but excluding Crown Land to which Council does not supply any of the following services) for the period commencing 1 July 2015 and ending on the 30 June 2016, namely:-

2.1 Waste Management:

Service charges for the making available of Waste Management Services to all land within the Municipal Area comprising waste disposal areas, waste transfer stations and related waste management facilities of \$152.

2.2 Fire Service Contribution:

Pursuant to Section 93A of the *Local Government Act 1993* Council makes the following service rates in respect of the Fire Service contributions it must collect under the *Fire Service Act 1979* for the rateable parcels of land within the Municipal Area as follows:-

<i>District</i>	<i>Cents in the Dollar of AAV</i>
General Land	0.3296

Pursuant to Section 93(3) of the *Local Government Act 1993* Council sets a minimum amount payable in respect of this service rate of \$38.

3. Separate Land:

INTRODUCTION:

Section 82 of the *Local Government Act 1993* (the Act), requires Council to prepare Budget Estimates of the Council's revenue and expenditure for each financial year.

The Budget Estimates are to contain details of the following information:-

- the estimated Revenue of the Council;
- the estimated Expenditure of the Council;
- the estimated Borrowings by the Council;
- the estimated Capital Works of the Council; and
- any other details required by the Minister.

In accordance with the Act the Budget Estimates must be adopted by Council before 31st August each year, but cannot be adopted more than one month before the start of the financial year to which they relate.

PREVIOUS COUNCIL CONSIDERATION:

Council Budget Workshops 1st & 2nd June 2015

OFFICER'S REPORT:

Due to an increase in valuations, Council has decided not to increase the rate in the dollar for 2015-16.

The development of a Long Term Financial Plan in the year ahead will be critical if Council is to maintain sustainable and compliant service delivery and asset standards to the community.

Council has budgeted for a total deficit of \$696,830 after taking into account Capital Grants & Contributions. The budgeted deficit includes a \$1,470,356 provision for depreciation and a \$2,043,999 Capital Works Program. This is in line with Council's continued push to increase its asset renewal ratio and invest in the upgrade and maintenance of its capital assets.

Within the 2015-2016 Budget Estimates the following have be established under legislative requirements or listed to provide further detail of their components:-

Capital Works Program

This budget provides for expenditure on Capital Works projects with a program totalling \$2,043,999. The following major projects of significance will be commenced and/or completed during the 2015-2016 financial year:-

PROJECT NAME	ESTIMATE \$
Road Reseals	651,544
Road Resheeting	77,120
Lughrata Quarry Development	70,000
Plant & Equipment	31,000
Town Maintenance	904,383
Airport	23,690
Waste Management	141,262
Office Computer Systems & Records Storage	25,000

Commonwealth Grants

Council continues to direct attention towards improving its share of the Commonwealth Financial Assistance Grants available to Tasmanian Councils and has persisted with its request for the State Grants Commission to review the various disability and/or isolation factors which form part of our assessment.

The amount budgeted for the year 2015-2016 is \$1,693,016 which represents Council's full yearly allocation, excluding a CPI increase which has been frozen by the Federal Government. This will be apportioned as follows:-

CATEGORY	AMOUNT \$
Road / Bridge Funds	1,019,541
General Purpose Funds	673,475

Conclusion

The previous agenda item 'Rates and Charges for 2015-16' if adopted will form part of the 2015-16 Budget Estimates under Item 2.

I now submit the Budget Estimates 2015-2016 for consideration and adoption by Council.

ASSOCIATED PAPERS	<i>Annexure 10: DRAFT 2015-2016 Annual Plan</i>

INTRODUCTION:

Section 71 of the *Local Government Act 1993* requires Council to prepare an Annual Plan for the municipal area each financial year. An Annual Plan is to be consistent with the Strategic Plan and include a statement of the manner in which Council is to meet the goals and objectives of the Strategic Plan. PREVIOUS COUNCIL CONSIDERATION:

Annually

OFFICER'S REPORT:

The Annual Plan is the document upon which Council's operations and service delivery will be based for 2015/2016. The Plan sets out actions, tasks and projects to be undertaken in the year ahead and how these relate to Council's Strategic Plan.

Of utmost importance is that this document forms part of the budget process. The Annual Plan identifies Council's significant service delivery activities and provides the link between the budget, strategic objectives and measurement tools to track achievements towards these outputs.

The 2015/2016 year will see Council continue to provide cost effective and community focused service provision combined with the development and implementation of important strategic documents to guide the Council, community and service provision in the years ahead.

Council has a statutory requirement to align its services and operations with a Strategic Plan. This Plan is critical to ensuring the goals and aspirations of the Municipality are taken into account when Council sets its annual priorities, operational plans and budget allocations.

Adoption of the Annual Plan is recommended.

DECISION:

Item B4: Regional Resource Sharing

ACTION	Decision
PROPONENT	Council Officer
OFFICER	Raoul Harper, General Manager
FILE REFERENCE	ADM/0500
ASSOCIATED PAPERS	<i>Annexure 13: Letter 6th July - Minister for Local Government</i>

INTRODUCTION:

Flinders Council has received a letter from the Minister for Local Government requesting that Council consider being involved in regional discussions and potential feasibility study into regional resource sharing.

Council has previously informed the Minister it is not supportive of voluntary amalgamation. Flinders Council has been utilising resource sharing for many years and in many ways is already at the forefront of this approach to service delivery. As resource sharing with other Council's is already in place, Council should consider if being involved in a regional assessment of future opportunities could add value to the work already being undertaken.

PREVIOUS COUNCIL CONSIDERATION:

Nil

OFFICER'S REPORT:

Flinders Council has shown that resource sharing can deliver improved service standards, lower costs and minimise risk to the organisation and the community. Currently Flinders Council utilises the services and expertise of other Council's for the support and/or delivery of planning, building, rates modeling, asset management and at times corporate services. This approach has supported a major shift in the organisational outputs and maturity of systems that support not only Council service delivery but the sustainability of the organisation as a whole.

Resource sharing is a viable alternative to amalgamation if efficiency and cost reduction is the primary driver of the Government's reform agenda. A collective approach at a regional level (or State level) to resource sharing could deliver major cost reductions and improve or at least maintain service standards across all Councils without impacting on local representation and advocacy.

As a General Manager I have attempted to champion such an approach at a regional level for many years and the current discussions around assessing opportunities for regional resource sharing is to my mind a very positive step forward and one that Council should consider as an opportunity not a threat.

Beyond the opportunities at a regional level, Flinders and West Tamar Council already have a very functional resource sharing model that could be assessed for further expansion as part of the reform process. With State funding support, a project could be developed that looked into how building, planning and permit authority functions could be further streamlined with the integration of property management and rating systems. This has significant potential to add value at not only a development services level but also at a corporate services level. If Council is serious about driving efficient service delivery and minimising costs, then these “back office’ functions are areas where expanded resource sharing and new delivery models have potential to create major savings.

The value of jobs and employment to our small community can’t be forgotten in this drive for efficiency and cost reduction. If new service delivery models can be discovered and implemented it may not necessarily lead to staff reductions but could see staff costs reallocated to other areas of service delivery such as infrastructures and private works. By building staff capacity in areas that generate revenue Council may well maintain staff levels but move to a more revenue positive operating position. The key point is that the reform agenda and regional willingness to explore opportunities does hold some potential to at least consider alternatives to the current models employed by Councils to deliver a range of services.

Council has previously written to the Minister for Local Government outlining the following:

“I write in answer to your request for Councils to voluntarily consider the issue of Amalgamation and/or a Shared Services Model. I advise that Flinders Council has considered the issue and is firmly of the opinion that Amalgamation or a Shared Service Model serves no purpose for Flinders Council and thus Flinders Council will not be partaking any further in the process.

The Community has been openly encouraged to talk to Councillors about how they feel about Amalgamation; Council Staff have as a unit considered it; as have the Councillors. All see no benefit in Council amalgamating or committing to a Shared Service arrangement. Flinders CURRENTLY buys in, from other Councils, services where it does not have LOCAL expertise, and we are very keen to keep the flexibility of obtaining the required service from the Council that offers the best deal that suits our needs.”

Council has taken a hard line in expressing no desire to consider voluntary amalgamation but the statement also precludes consideration of shared services models. To my mind it is this unwillingness to consider involvement in exploring refinements or expansions to shared service arrangements that needs to be reconsidered by Council. In essence we are involved and already committed to

shared service arrangements. If we are committed to the concept of “*obtaining the required service from the Council that offers the best deal that suits our needs*” then involvement with the reform process and any regional assessment of opportunities and expansion and/or refinement of our existing arrangements with State Government support should be supported.

Ultimately, the stance taken by Council in response to the State Government’s reform agenda is a matter for elected members. From an Officer perspective the current stance of no engagement at all carries significant risk and will exclude Flinders from exploring options that may have potential to enhance the sustainability of the organisation as a whole and the sector more broadly. Shared service delivery and/or resource sharing has been and continues to be a strength in the delivery model employed by Council and the ability to engage with the reform process holds opportunities that are worthy of at least exploring.

STATUTORY REQUIREMENT:

Local Government Act 1993

POLICY/STRATEGIC IMPLICATIONS:

5.0 Corporate Governance and Intergovernmental Relations

BUDGET AND FINANCIAL IMPLICATIONS:

Failure to explore models that could deliver improved services and reduce costs could expose Council to increased costs or decreased service standards.

RISK/LIABILITY:

Failure to engage with the reform process on any level does expose Council to risk.

VOTING REQUIREMENTS:

Simple Majority

OFFICER’S RECOMMENDATION:

That the Mayor write to the Minister for Local Government expressing that:

- 1) Flinders Council has for many years been at the forefront of utilising resource sharing.
- 2) Flinders Council will continue to explore how these can deliver improved services and cost efficiencies for our community.
- 3) With funding support provided by the State Government, Flinders Council confirms a willingness to explore other models of sharing resources either within our existing agreements or at a regional level.
