

SUBJECT: <i>AERODROME UPGRADE POLICY</i>	FILE NO:	AER/0902
ADOPTED BY COUNCIL ON: 18 November 2010	MINUTE NO:	367.11.2010

Introduction

Due to a growing number of requests from airline charter companies wanting to utilise the Whitemark Airport in aircraft carrying greater than 30 passengers it is necessary for Council to adopt a policy that directs any future upgrades of the facility towards meeting the requirements set out for licensing by CASA as a certified airport with the future vision of becoming so.

Objectives

The objective of this policy is to ensure that any future works carried out at the Whitemark Airport consider CASA requirements to become a certified aerodrome.

Procedure

Works of any nature undertaken at the airport must either comply or be working towards the requirements of CASA MOS part 139. It is the requirement of the Aerodrome Operations Supervisor to consult with the General Manager and Council to ensure this policy is, where possible, adhered to.

Related Legislation, Regulations and Policies

Local Government Act 1993

Responsibilities

The responsibility of this policy rests with the General Manager.
