1. Investment Valuations
 - (a) Investments are valued at market value using the latest available last sale price. All investments are valued on a cum-payment basis until such time as income accrued on an investment becomes due and payable, at which point the security is valued on an ex-payment basis.
 - (b) Investment valuations are obtained using the Interactive Data providing equities and fixed interest pricing service as appropriate, unless otherwise stated.
 - (c) Unlisted Unit Trusts are valued using the latest available Net Asset Value (NAV) per unit, less any disposal costs. The NAV is calculated by deducting from the value of the unlisted unit trust's gross assets the value of the liabilities of the unlisted unit trust.
 - (d) Other Investments not included above, for which a generally accepted market price is not available, are valued using a fair market value which could reasonably be expected to be obtained upon disposal in an orderly market.
2. Costs incurred in the acquisition of investments (such as brokerage and GST on brokerage) are included in the Cost. The amount of GST on brokerage included is the amount which is not recoverable, i.e. GST less recoverable input tax credit (ITC)/reduced input tax credit (RITC) (which is calculated based on the ITC/RITC entitlement information you supplied to us).
3. The Unrealised Profit/(Loss) for each security is calculated as Market Value less Cost.
4. Market values for BT Institutional Managed Cash Fund, BT Institutional Stable Cash Fund and Cash at Bank include accrued interest income.
