Killiecrankie All Tide Boat Ramp.

Dear Sir, further to the email I sent on the 29th of April, I have received more information from Mast.

Mr. Jim Caulfield, Mast representative has indicated that they would fund the total construction but is asking whether the Flinders Island Council would consider funding the additional studies that are requirements from Parks And Wildlife.

These are = specialist studies = aboriginal and heritage report, engineering drawings, and design of construction.

There are numerous other requests from parks but with local help, surveyors and builders we should be able to satisfy their requirements.

Regards Norman Hunt.
