### **GENERAL BUSINESS**

- Any equipment stored in the gym that doesn't belong needs to be removed. If someone gets injured using non-council equipment, then they aren't covered and this could affect the gym. The users could donate it to the gym by writing Council a letter and this would require approval. If approved they are then property of the gym.
- We need to look at the positioning of equipment, especially the squat rack. Next meeting to be at the gym to see what we can do.
- Last Friday 6 contractors were inducted. Just need to let them know to write their individual names in.
- Justin will be offering his services at the gym for the community organised through Council
- Rachel and Justin went to the Lions meeting and floated the idea of renting the whole space. This was declined but was said that we could possibly build onto the spare block. Rachel spoke to Warren and there could be the possibility of using council land to build a new gym. We need to put together a recreational use plan ready for August meetings for the council to decide if they would like to support this. Once this is decided, we can progress further into funding it.

**MOTION: The Committee recommends that Council approves the Whitemark Community Gym Special Committee to undertake an investigation into the development of a fit-for-purpose gym facility in Whitemark.**
