2021 - 94	Zeer Parry	5/08/2021	Opt1 - Roads	Pot holes on the State road between Lady Barron and Whitemark are causing damage to vehicles. Very disappointing to have these filled with gravel and then ignored so that they return to the same original or worse dangerous state. Attached is photos of potholes within a 100m stretch just east of the Lackrana Road turn off and a photo of damage incurred to a vehicle travelling between Lady Barron and Whitemark. Cost in excess of \$100 to repair/replace rim, luckily no accident caused. I am prepared to contact the State Government if this will assist Council to better maintain this road on behalf of the State.	State road between Lady Barron and Whitemark		5/08/2021	10/08/2021 - Infrastructure Manager emailed resident to advise schedule for this works. Road has been worked on. AH	The maintenance crew were pothole-patching on Lady Barron Rd yesterday and will be working on the road again today. They will continue pothole-patching as the weather allows. It has taken until now to start patching as the asphalt repair material that was ordered in mid-June, only arrived on this week's ship.  Filling the potholes with gravel was an interim measure until the asphalt repair material was delivered.  The larger potholes and soft break-out areas will require digging-out and reconstructing with new road-base which can only be done once the existing road-base has dried. This will only start once we get a period of dry weather.  Council will continue to undertake road maintenance on behalf of State Growth in line with the agreement.	Closed
